IFA 2014. Discover the easy way to perfect results.

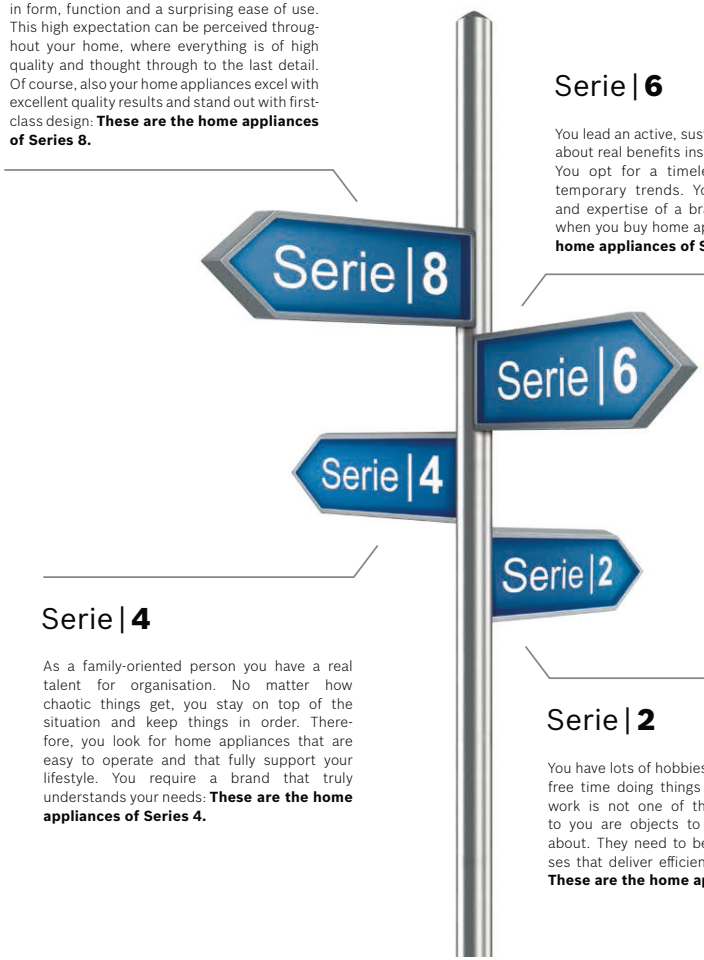
Bosch wants to make life easier for consumers. With innovative home appliances that can be understood at first glance and are intuitive to operate. With intelligent automatic functions that always get perfect results, while saving time, effort and resources. With technologies for freshness that store fresh foods longer. With the new PerfectBake sensor in the Series 8 ovens that ensures perfect baking results at the touch of a button.

The right one for everyone.

To make it easier to decide what to buy we've divided our appliances into four classes, Series 8, 6, 4 and 2. Each has its characteristic features to meet specific needs. Find out which appliances best fit your lifestyle.

Serie | **8**

To you, perfection is paramount. It manifests in form, function and a surprising ease of use. This high expectation can be perceived throughout your home, where everything is of high quality and thought through to the last detail. Of course, also your home appliances excel with excellent quality results and stand out with first-class design: **These are the home appliances of Series 8.**



Serie | **6**

You lead an active, sustainable lifestyle. You care about real benefits instead of technical gadgets. You opt for a timeless design and not for temporary trends. You trust the experience and expertise of a brand with a long tradition when you buy home appliances: **These are the home appliances of Series 6.**

Serie | **4**

As a family-oriented person you have a real talent for organisation. No matter how chaotic things get, you stay on top of the situation and keep things in order. Therefore, you look for home appliances that are easy to operate and that fully support your lifestyle. You require a brand that truly understands your needs: **These are the home appliances of Series 4.**

Serie | **2**

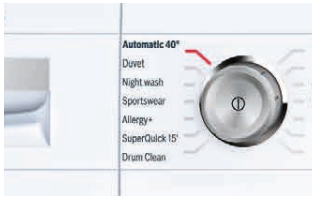
You have lots of hobbies and like to spend your free time doing things you enjoy; but housework is not one of them. Home appliances to you are objects to use and not to think about. They need to be dependable workhorses that deliver efficient value for the money: **These are the home appliances of Series 2.**

Simply perfect washing.
Perfectly simple drying.

New in washing machines

NEW **ComfortControl with usage indicator**
Simple operation, electricity and water usage meter.

VarioPerfect™ – The **SpeedPerfect** and **EcoPerfect** options can be selected along with particularly all programmes for even faster or more economical washing, with no compromises on washing performance.



NEW **Drum cleaning with reminder function**
The drum cleaning feature with reminder is a special cycle for cleaning and maintaining the drum and detergent container, for example before the first time you wash with the machine, if you wash frequently at low temperatures (40°C or below), or if there is an odour after you've been away for a while. The **Clean drum** indicator light will blink if you haven't washed at 60°C or above for an extended period.

New in HomeProfessional washer-dryers

NEW **AntiVibration Design**
The design of the sidewalls makes the appliance stiffer for less vibration – now also for washer-dryers!

NEW **Refresh function**
Freshens up and smooths out clothes with steam while also neutralising odours.

New in dryers

NEW **AllergyPlus**
The AllergyPlus programme was designed especially for the needs of allergy sufferers. Constant high heat during drying kills allergens like germs, mites and bacteria. This allergy-suppressing programme has been awarded the ECARF Quality Seal.

Healthy living, made easy.

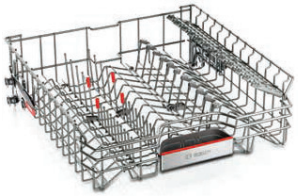
NEW **The CoolClassic fridge-freezer.**
These new models with their 214 l refrigerator section and 88 l freezer section offer design and convenience in a new dimension. The ChillerBox keeps meat, cold cuts and fish fresh up to twice as long. The only thing that's small about this appliance is its power usage – it's rated Energy Efficiency Class A+++!

NEW **Whisper-quiet cooling and freezing.**
At just 35 dB(A) the KGN39XI45 is Bosch's quietest fridge-freezer with NoFrost technology.

Simply brilliant.

NEW **Super 60° programme**
Even the dirtiest of dishes come up brilliantly clean thanks to the Super 60°C programme. The new high-speed pump generates vigorous water pressure inside the machine to remove residual dirt for a spotless shine. In addition, the programme delivers brilliant drying results.

NEW **TFT display**
The new high-resolution top display offers helpful hints and supplementary information for optimum dishwasher use. In addition, it shows in real time how long the programme still has left to run. For brilliant dishwashing results that are always on time.



NEW **Red Touchpoints**
Touchpoints indicate where to fold down the foldable racks or adjust the height of the upper basket. Thanks to these markings, you can instantly spot how and where to modify the baskets so you always have the perfect solution for every combination of dishes.

Zeolith® Drying
Our multiple award-winning Zeolith® technology now offers even greater energy savings with gleaming drying results. Extremely little energy is needed during drying, significantly reducing electricity usage. The secret is the natural Zeolith® mineral. It regenerates every time you wash, lasts for the life of the dishwasher, and never needs replacing.

We didn’t reinvent the wheel. But we taught it how to cook.

The first recipe collection in the form of an oven.

You could search through stacks of cookbooks and old family recipes without ever finding precise information on temperature or cooking time. Thanks to the Bosch Assist function for automatic oven settings, you don't have to worry about that anymore: simply select the desired dish in the control panel and your oven automatically sets the ideal heating mode, temperature and length of time. Of course, you can also select these settings yourself every bit as easily.

The new Series 8 generation of ovens.

NEW **PerfectBake sensor**

Baking has never been easier. The PerfectBake sensor offers uniquely precise sensitivity, constantly measuring the moisture level of your dishes and automatically regulating the baking process. You'll never have to set the heating mode, length of time or temperature ever again – the PerfectBake sensor has it all under control. Simply select the type of dish, such as "Cake", and press "Start". Your oven will do the rest. The result: bread, cake and quiche baked to perfection.

NEW **PerfectRoast meat probe**

Christmas turkey, Easter lamb or Sunday roast – with the PerfectRoast meat probe, you'll get perfect results every time. Just like a professional chef, but with total ease. Through several highly sensitive measuring points, the probe determines the core temperature of your roast to the exact degree and second, guaranteeing perfect roasting results. Another benefit: you can also use the meat probe in the microwave- and steam oven mode.

NEW **Assist function**

You could search through stacks of cookbooks and old family recipes without ever finding precise information on temperature or cooking time. Thanks to the Bosch Assist function for automatic oven settings, you don't have to worry about that anymore: simply select the desired dish in the control panel and your oven automatically sets the ideal heating mode, temperature and length of time. Of course, you can also select these settings yourself every bit as easily.

NEW **4D Hotair**

Thanks to 4D Hotair, you can place your food on any shelf level from one to four and the results will be consistently perfect. Our new fan wheel makes it possible: it changes the direction of rotation during operation to distribute heat evenly on every level. And that's not all: with 4D Hotair, you can also bake and roast on up to four different levels simultaneously. For reliable results from top to bottom.

NEW **Intuitive control ring**

Everything you need at hand: our new, intuitive control ring makes cooking easier than ever. With just a small turn of the stainless steel ring, you can adjust any of your oven's settings. The TFT-touchdisplay, with its clear and straightforward design, guides you through the various menu options. This gives you full control over your dishes at all times and everything succeeds with ease.

NEW **Control panel with TFT-touchdisplay**

You'll always have a complete overview and full control of all your oven's functions. The intuitive control ring and full-width, high-resolution clear-text TFT-touchdisplay with direct select TouchControl-buttons make operating our ovens a breeze. Clear, vivid images and helpful prompts guide you through each step as you navigate through the various programme options.

NEW **Control panel with TFT-display**

Our intuitive control ring and high-resolution, clear-text TFT display with direct select buttons make oven operation a pleasure from day one. Helpful icons and clear descriptions inside the control ring provide all the information you need, making it very easy for you to keep track of the progress of your dishes.

Home Connect.

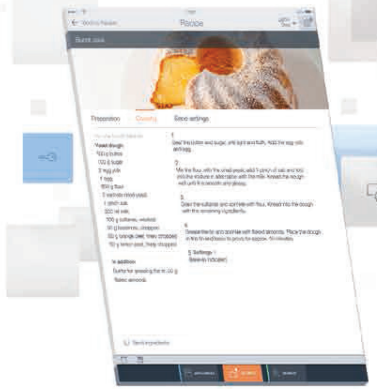
At Bosch we follow one simple principle in everything we do: All our innovations are designed to make your everyday life easier. Thanks to smart connectivity, our home appliances with Home Connect offer you entirely new opportunities for use and enable you to make your life and work much more enjoyable than ever before. With Home Connect, you now have the flexibility to control and monitor your home appliances with your smartphone or tablet PC. At the same time, you also have access to digital user manuals and receive constantly updated tips and tricks to ensure you get the very best out of your appliances with Home Connect – Wherever and whenever you want.

With Home Connect, your customers will find entirely new ways to control and monitor their home appliances and make their everyday lives much easier. Smart connectivity between the home, smartphones and tablets is an innovation with a real customer benefit and, as such, is also a powerful selling point. With a wide range of high-impact media and measures to improve the quality of your sales dialogue, the Home Connect campaign generates a high level of awareness – both in and beyond your showroom.

Built for today. Designed for the future.

Thanks to smart connectivity, our home appliances with Home Connect offer you entirely new opportunities for use and enable you to make your life and work much more enjoyable than ever before. Because, with Home Connect, you now have the flexibility to control and monitor your home appliances with your smartphone or tablet PC.

At the same time, you also have access to digital user manuals and receive constantly updated tips and tricks to ensure you get the very best out of your appliances with Home Connect – Wherever and whenever you want.



You can now wash the dishes with your tablet.

Our dishwashers with Home Connect help you to wash the dishes now even easier. You can remotely start the dishwasher and check its current status wherever you are and whenever you want.

If you wish, you can be notified when the dishes are done or the salt or rinse aid levels are critical and can check from anywhere and at any time whether you turned off the dishwasher before you left home.

In addition to this, it also makes setting up the basic parameters like water hardness and the addition of rinse aid a much easier task. Get connected with Home Connect and discover the full potentials of Bosch home appliances:
www.bosch-home.com

You like cooking to recipes? So does your oven.

Get even more out of your oven with Home Connect. You can start your oven remotely from wherever you are and monitor the phases of the programme you set. If you like, you can even be sent a push notification to your smartphone or tablet as soon as the programme is completed.

Furthermore you can also remotely check whether you really did turn off the oven before leaving the house. To maximise your enjoyment of perfect cuisine, Home Connect offers digital recipes with settings that can be simply and conveniently transferred directly to your oven.
